What is this product?

TYPE OF PRODUCT

The product is a sub-fund of ZEST ASSET MANAGEMENT SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Fund may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The Sub-Fund aims at producing a positive return with in-depth analysis over selected securities and market opportunities by targeting companies with strong balance sheets which may have a temporal negative credit event not detrimental to the company as a whole, however, affecting the price of the underlying credit securities of such company. The Investment Manager will focus on gauging opportunities that have a high capital gain potential with the lowest downside possible. The Sub-Fund will seek returns in both current income (coupons) and capital growth.

The Sub-Fund will invest at least 70% of its net assets in USD denominated bonds, convertible bonds (including contingent convertible bonds) and any other debt instruments (the "Bonds"); money markets instruments; UCITS and/or UCIs (limited to 10% of the net assets).

Ratings requirements (which may be esteemed, at the issue or at the issuer level): bonds' rating shall range from High Yield (i.e. rating at least of B3/B- (long-term rating) by one or more of the main rating agencies) to Investment Grade; money market instrument rating shall be equivalent to Investment Grade (by one or more of the main rating agencies). Without being a constraint, the expected average rating will be BBB- / BB+.

Investments in non-rated Bonds will be however limited to 10% of the Sub-Fund's net assets. If the Bonds issuer/ the issue has not been given a credit rating by a recognized rating agency, the Board of Directors may appreciate whether one instrument possesses the equivalent of at least High Yield rating criteria (at the issuer or at the issue level). Any such (lack of) rating criteria will be monitored by the Investment Manager on a regular basis as from the date of investment until the sale of the concerned debt instruments.

In case of any debt instrument's rating being downgraded by all of the main rating agencies, the Investment Manager shall be authorized to keep the investment as long as this is not detrimental to best interest of shareholders and upon proper analysis (similar to that of prepared for non-rated Bonds). The Sub-Fund may be exposed for up to 10% of its net asset to Emerging and Frontier Markets.

Without any focus on any currency and under the limitations set out below, the Sub-Fund may invest up to 30% of its assets in other eligible assets, as follows:

- Bonds, convertible bonds, contingent convertible bonds and debt instruments not denominated in USD (the "Bonds");
- Money markets instruments;
- Units or shares of other UCITS and/or UCIs (including those established as Exchange Traded Sub-Funds, and within the 10% limit mentioned below).
- Equity and equity related securities; and
- Structured products.

The Sub-Fund will not invest more than 20% of its net assets in contingent convertible bonds; 20% of its net assets in Rule 144A Securities; and 10% in equity and equity related securities. The Sub-Fund may invest up to 10% of its net assets in structured products. The Sub-Fund will not invest directly in ABS/MBS and will invest in TRS.

Derivatives For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments. Nevertheless, in normal market conditions, the Investment Manager will largely favour future, options and CFD.

Benchmark The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is USD.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

The minimum subscription amount for the Class is 10,000 USD.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on each bank business day in Luxembourg. The cut-off time to submit subscriptions and/or redemptions orders is 2 p.m. Luxembourg time on the bank business day preceding the relevant calculation day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target share class, type or sub-type, are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds, which is available at www.fundinfo.com.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundinfo.com.

This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		3 years USD 10,000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	USD 8,610 -13.9%	USD 8,270 -6.1%	
Unfavourable scenario	What you might get back after costs Average return each year	USD 8,610 -13.9%	USD 8,790 -4.2%	This type of scenario occurred for an investment in the product between September 2019 and September 2022.
Moderate scenario	What you might get back after costs Average return each year	USD 10,080 0.8%	USD 10,520 1.7%	This type of scenario occurred for an investment in the proxy then the product between October 2016 and October 2019.
Favourable scenario	What you might get back after costs Average return each year	USD 10,870 8.7%	USD 11,140 3.7%	This type of scenario occurred for an investment in the proxy between December 2013 and December 2016.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested

Investment of USD 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	USD 235	USD 746
Annual cost impact (*)	2.4%	2.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.1% before costs and 1.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 3.00%.	Up to USD 300
Exit costs	We do not charge an exit fee for this Class.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.96% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 196
Transaction costs	0.39% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 39
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 3 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for the Class is calculated on each bank business day in Luxembourg. The cut-off time to submit subscriptions and/or redemptions orders is 2 p.m. Luxembourg time on the bank business day preceding the relevant calculation day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
